### SINN FEIN KETTLE KEEPS BOILING

Purpose Is Said to Be to Keep the Nerves  
of the Government on Edge for  
Fear of Some Terrible  
Event.

Dublin, Nov. 28.—(Correspondence of the Associated Press).—The Sinn Fein agitation continues to steam without boiling over into actual rebellion. The purpose of the Sinn Feiners is alleged to be to keep nerves of the government on edge, to produce the impression that they meditate very dreadful deeds, and at suitable moments to provoke the government action as an evidence that England is holding down Ireland by force. Their notion is said to be that the military measures taken against them prejudice England in neutral countries, and in Russia.

The attitude of the military commanders is that it is their business to check anything that could facilitate another armed revolt. The last time they were caught napping and besides, incurred a formidable list of casualties in killed and wounded. The government had to pay three million pounds because it was obliged to admit responsibility for the failure to protect the lives and property of peaceful citizens. They are resolved that that shall not happen again. That is why they have forbidden drilling, or uniforms, or processions.

A disciplined body of men marching in military formation, and trained to the word of command, even if armed only with hurleys, could outmaster any local police force and control any town. Hence such processions are prohibited. To-day there were to be Sinn Fein national parades in uniform all over Ireland with a great meeting in the neighborhood of the Curragh camp. That has been prevented.

The military authorities are particularly keen on preventing the acquisition of arms. The Sinn Fein's main hope of getting arms is not from Germany but from the British army, and there is a constant activity to steal or purchase arms from individual soldiers.

For the present the government is in the position that through the convention it is offering the Irish people home rule. But the convention drags along without coming to a decision. If it should not form a plan of government Ireland will be left where it was at the beginning, with the knowledge that there can be home rule for twenty-six counties, and that Belfast will not come in and cannot be forced in. The situation then would be that the government would be obliged to suppress the Sinn Feiners.

**A 750-MILE PIPELINE**  
Will Conduct Oil from Rumania Wells  
Into Austria.

Amsterdam, Netherlands, Nov. 28.—A pipeline 750 miles long is about to be laid, according to a German automobile journal, between Ploesti, Rumania, and Odenberg, on the Austro-German frontier. This pipeline will convey oil direct from the Rumanian wells throughout the entire width of the Austro-Hungarian monarchy to the very door of the industrial districts of German Silesia. At present, railroad freight runs up the price of 900 marks for ten tons at the well mouth to 3,000 marks at the German frontier. By the projected pipeline the cost of transportation is to be reduced to only 50 marks for the same quantity. The estimated outlay for constructing the line is fifteen million marks.

London, Nov. 28.—The Times' Petrograd correspondent says he has learned from an authentic source that there was a meeting of the foreign ambassadors at the American embassy Friday night, at which it was decided to ignore the note of Leon Trotsky, the Bolshevik foreign minister, demanding an armistice. It was decided, the correspondent adds, to treat the note as if it had not been received.

**NORWAY INFESTED  
WITH GERMAN SPIES**

Many Have Been Caught, Some Sent to  
Jail and Others Expelled from  
the Country.

Christiania, Nov. 28.—(Correspondence of the Associated Press).—Norway during the last half of this year has had the same experience of German methods as the United States went through before it entered the war, spies working everywhere under the direction of espionage centers in the neighboring countries, Sweden and Denmark.

Thanks to the work of the police, especially in Christiania, many of them have been caught, some sent to jail and others expelled from the country. Several mysterious fires in great industrial plants and storage houses have aroused a country-wide suspicion against every German, Swede and Finn. During the last half of the year there have been twenty-one such fires here, two or three occurring together. The great store of provisions in Trondheim belonging to the British importing agency was burned.

with a loss of several million dollars. It proved to be of incendiary origin. Two canning plants with great exports for Great Britain were burned, and a condensed milk plant with exclusive export trade to England was destroyed with more than a million cans ready for shipment.

Three planing mills in different parts of the country were burned. Their output was being used for boxes and crates for export. The other day another planing mill in the vicinity of the government's fire-arm manufactory at Kongsberg was burned during the night and while attention was directed toward this fire a burglar was detected in the fire-arm factory. The press states that German plotters in this case tried to blow up the government factory.

Foreigners have sought and in some cases obtained employment at the government munition plant, and later have been discovered to be German citizens, some of them even officers in the German army.

The press is warning the people to look for a criminal spy in every German in the country.

In order to keep such undesirable guests out of the country and prevent the increasing number of foreigners of a poor quality from drifting into Norway, a short bill was passed by Parliament forbidding foreigners who have arrived since August, 1914, to stay here more than two weeks without special license.

**KAISER'S PUBLICISTS  
BELITTLE AMERICA**

Seek to Make German People Believe  
Yankees Can't  
Fight.

Amsterdam, Nov. 28.—The German press is beginning to figure on how effective America's fighting men will be, according to papers received here yesterday.

Apparently the German government has started its propaganda machine at work to make the public believe that the United States isn't efficient. German papers contain lengthy articles by experts attempting to belittle the Americans as fighters.

Dr. Derburg, once head of the German propaganda in the United States, spoke recently at Karlsruhe, declaring it "was doubtful whether America would be able to supply any large number of troops at any time soon."

"The aims of America and the entente are incompatible," he added. "America rejected their ideas of a trade war and their plan to smash Germany."

### TRIBUTE TO AIRMEN.

Premier Lloyd George Called Them  
"Chivalry of the Army."

London, Nov. 28.—"The Chivalry of the Army" was the title bestowed upon the British air forces by Premier Lloyd George in a tribute he paid to them in a recent speech in the House of Commons. The premier was moving a vote of thanks to the British armies and navy.

Of the aviation service he said: "The heavens are their battlefields, they are the cavalry of the clouds. High above the squalor and the mud, so high in the firmament that they are not visible from earth, they fight out the eternal issues of right and wrong. Their struggles there by day and night are like a

Milonic conflict between the winged hosts of light and darkness.

"They fight the foe high up and they fight him low down, they skim like swallows along the ground, attacking armed men in their trenches. They scatter infantry on the march and destroy convoys. Every flight is a romance, every

record is an epic. They are the knights of the war, without fear and without reproach. They recall the old legend of chivalry, not merely by the power of their individual exploits, but by the nobility of their spirit, and among the multitude of heroes we must continuously thank the chivalry of the army."
